

May 29, 2020

Dear Ruben,

Verafin would like to express our appreciation to you for doing a MITACS Accelerate Fellowship with us for the past 4 months.

Your fellowship was part of our pilot round of MITACS Accelerate Fellowships. We have been impressed by the quality of research from all fellows, and your fellowship has been fundamental in helping us build closer ties with Memorial University.

We will send you a questionnaire on your experience working with Verafin during your fellowship. We appreciate the insights you can provide, as your viewpoint is important to help us improve future fellowship rounds.

It has been our pleasure collaborating with you on your research. Verafin wishes you the best in your future endeavours.

Sincerely,

A handwritten signature in black ink, reading "Terrence Tricco". The signature is written in a cursive, flowing style.
